Subject: Senate Bill 1090

To Whom It May Concern:

Seriously? More casinos in CT? I don't think this is the long-term answer for creating revenue in this state nor is it conducive to our already crowded highways. I can't believe I am even reading that the CT government is considering this as a viable option for the state.

I can't believe that this is what the people of the state of CT want, nor what my family and I want in this state.

I vote and I make sure my friends vote. If you choose to junk up our state with more casinos and our already overtaxed citizens, I don't see a whole lot of reasons to stay around once retirement hits.

I am definitely not interested in this bill being passed.
